Re: Live Love

To Whom it May Concern,

I am writing this letter in support of the nonprofit organization, Live Love – located in Chandler, Arizona. Serving as the principal of the local junior high school for the past twelve years I have seen first-hand the commitment of Live Love to the people of downtown Chandler. At our school, we have many students who experience significant challenges. I know that our best chance of ensuring a positive trajectory for our kids is to invest in their families and our neighborhood. Live Love is an organization that exemplifies what it means to pour into a community.

There are many wonderful nonprofits and service organizations that support those experiencing difficulties and provide for needs. Live Love is different. This organization prioritizes relationships. They do their work immersed in the community as friends and neighbors – walking with, supporting, and working to amplify the voices of community members. Live Love exists to encourage and empower community members. The Oasis Project is a prime example of Live Love's commitment to doing things with the community, not to the community. The Oasis will be a safe place of beauty that brings people together, fosters kinship, and provides respite and peace.

With a clear purpose, passionate leadership, and relational approach to community support, Live Love is an organization worthy of support. They are difference makers.

Thank you for your time and consideration.

Jeff Delp
